

IN THE DRAWING

Please add the accompanying “New Sheet” of drawings, labeled as “FIG. 9,” to the drawing figures of record. New FIG. 9 illustrates the “combipack,” designated by reference numeral “40,” as recited in Applicants’ claims.

FIGS. 1 – 8 remain in the patent application without amendment, however, the five original sheets of drawings presenting these figures have been replaced: The “Replacement Sheets” containing FIGS. 1 – 8 have been amended to delete the “sheet numbers” at the top of each of the five original drawing sheets in view of the addition of a sixth sheet of drawing figures, thereby rendering the original sheet numbers incorrect.

In the first Office Action, the Examiner had objected to the drawing figures originally of record, pursuant to 37 C.F.R. §1.83(a), on the ground that the “combipack” recited in Applicants’ claims was not shown in the drawing and was required to be illustrated on the ground that it was a feature of the pending claims.

Applicants respectfully contend that the addition of FIG. 9 to the application addresses, and overcomes, the Examiner’s 37 C.F.R. §1.83(a) drawing objection which, it is submitted, should now be withdrawn.

Applicants are appropriately amending the textual Specification, so that the disclosure properly refers to new FIG. 9.
